

**Quiz Night Fundraiser**

At our upcoming quiz night, as a fundraiser, we will be running a “bottle bingo” raffle. Please send your child to school with a “bottle” to contribute to our prizes. Bottles can be anything in bottle form e.g. body wash, chocolate sauce, dishwashing liquid, fizzy drinks. Items can be dropped in to the collection point in the office. Proceeds from the Quiz Night go towards the development of our ‘Playscape’ area. Team Pipi appreciates your support ☺

**An important message from our Public Health Nurse**

Measles is a serious, highly infectious viral disease that is easy to prevent through immunisation.

**If your child has had two doses of the Measles, Mumps and Rubella (MMR) immunisation they are protected.**

As there is a high chance that measles could spread throughout Hawke’s Bay, we urge you take the following steps to make sure your child is protected:

**Check your child has had two doses of the MMR immunisation.**

- If your child only has a record of receiving one dose of MMR they should have another as soon as possible
- If your child has no record of MMR immunisation they should have one dose now and a second dose FOUR weeks later.
- **Immunisation is FREE from your GP or Practice Nurse.**

**Please make sure your child’s school has a copy of their immunisation certificate.** If your child has contact with a person with confirmed measles they may be asked to keep away from school for up to two weeks if there is no record of them having been immunised against MMR.

Immunisation is highly recommended as it protects your child and helps prevent the spread of infection in the community when an outbreak occurs.

If you require further information, you can find out more from the Ministry of Health’s website [www.health.govt.nz/measles](http://www.health.govt.nz/measles)
